—The immigrant wagons con-  
tinue to roll into Colorado City  
every day, says the Clipper, and  
from the splendid horse and mule  
teams, nice bunches of stock cattle  
and horses and splendid equip-  
ments of the outfits generally, it is  
plain to be seen that we are receiv-  
ing a very thrifty and independent  
class of farmers as citizens in this  
season, men who are prepared to  
open up good sized farms in time  
for spring planting.

Mr. H. GARDNER, a traveling sales  
man residing in this city, was heard  
to remark Tuesday, that Brenham  
compared favorably with other cities  
of its size as a business place, and  
as an evidence of which he cited the  
fact that he and one or two other  
men sold here during the last week  
nine car loads of goods. During  
the same period four car loads were  
received by the Santa Fe, making a  
total of eleven car loads, and this  
said he, does not include the local or-  
ders which in the same time amount  
ed to perhaps two full car loads,  
making a total of fifteen cars during  
the week, that he knew of person-  
ally, to say nothing of the sales and  
receipts of the week that did not  
come within his knowledge. This is  
a handsome showing and proves  
Brenham to be among the best busi-  
ness points in the interior.

As showing the effect of elasticity  
of belts, says an exchange, it is a  
fact that owing to the slip, elasticity  
and thickness of a belt the circum-  
ference of the driven pulley does not  
run as fast as the circumference of  
the driver, and taking two pulleys  
of the same diameter one can be  
made to run twice as fast as the  
other without slipping, by using an  
elastic rubber belt.
